HAZARD ASSESSMENT FORM

Description of Work Area:	Assessment Performed By:				Date:
Description of Hazard (Condition/Circumstance)	Severity (1-3)	Probability (1-3)	Exposure (1-3)	Total	Rating

CALCULATION OF HAZARD RATING

Potential Severity (S):	Probability of occurrence in the foreseeable future (P):	Exposure of workers to hazard (E):
1 First aid or minor property damage	1 Unlikely to occur	1 Small numbers of workers rarely exposed to hazard
2 Lost time injury or significant property damage	2 Could occur	2 Small number of workers frequently exposed or larger number of works infrequently exposed
3 Fatality/permanent disability or major property damage	3 Will occur if not attended to	3 Large number of workers frequently exposed

$$S + P + E = \text{Total}$$

Rating:

Serious	(requires immediate attention)	Total of 7, 8, or 9
Moderate	(requires attention)	Total of 5 or 6
Low	(requires monitoring)	Total of 3 or 4
